

2. Kaudal

TRANSPORTATION AND VEHICLE SHUTTLE INFORMATION

POUDRE RIVER 1/2 DAY Trip members meet at the take-out above the second canyon dam. A representative from I.A.A. will be there to meet them. IAA representative will request that 1 private vehicle be left at the take-out to be used in the shuttle after the trip. Occupants of the vehicle remaining will ride with other vehicles to the put-in. After the trip is made, all drivers plus driver of the IAA vehicle will ride back to the put-in in the vehicle that was left. Vehicle will be picked up in this manner. Meeting time at the take-out will be 1/2 hour before the trip time.

NORTH PLATTE RIVER 2 DAY Trip members will meet in 3-Way, Colorado at 8:00 AM with IAA representative. Waterproof bags will be distributed and packed and trip members will be transported to the put-in in the IAA van. The van and trailer will then be shuttled to the take-out near Douglas Creek by an IAA employee. After the trip is derigged trip members will be driven back to their vehicles in 3-Way.

COLORADO RIVER 1 DAY Trip members will meet at State Bridge, Colorado at 8:00 AM. Their vehicles will remain there. Participants will be transported to the pumphouse put-in in the IAA van. If additional vehicles are needed use of one private vehicle will be requested in return for a small reimbursement (\$5.00). The IAA van will be returned from the put-in to State Bridge by an IAA employee. Upon the trip's completion at State Bridge, participants will be requested to give owner of previously mentioned vehicle a ride to his car at the put-in. If no response the driver will be shuttled using the IAA van.

COLORADO RIVER 2 DAY Trip members will meet at State Bridge, Colorado at 8:00 AM. Drivers of vehicles will be taken to the Sweetwater take-out with their vehicles. One private vehicle owner will be asked to return to State Bridge with his vehicle and the other drivers, in return for a small reimbursement (\$5.00). An IAA employee will bring the IAA van and trailer to the take-out at the designated time. The above mentioned private vehicle driver and his auto passengers will be returned in the IAA van to his vehicle at State Bridge.

COLORADO RIVER 3 DAY Trip members will meet at State Bridge, Colorado at 8:00 AM. Drivers of vehicles will be taken to Sweetwater take-out with their vehicles. One private vehicle owner will be asked to return to State Bridge with his vehicle and other drivers in return for a small reimbursement (\$5.00). In the meantime, other trip members will be shuttled in the IAA van with gear in waterproof bags to the pumphouse put-in. When drivers arrive at State Bridge, they will pack waterproof bags and go to the put-in in the IAA van. An IAA employee will bring the van and trailer to the take-out at the designated time. The trip member whose vehicle is at State Bridge and his auto passengers will return to his vehicle in the IAA van.

### NORTH PLATTE RIVER

From Denver- 175 miles- 4 hours driving time. Take Interstate 25 to Fort Collins. From Fort Collins take U.S. Hwy 287 to Laramie and Wyoming State Hwy 230 from Laramie to the junction of Colorado State Hwys 127 and 125. I.A.A. personnel will be waiting to give you further information at the north side of the junction next to the cafe.

### COLORADO RIVER

From Denver- 147 miles- 3½ hrs. driving time. Take Interstate 70 west through the Eisenhower tunnel and over Vail Pass to Wolcott. At Wolcott take state hwy 131 to State Bridge. I.A.A. personnel will be waiting to give you further information at the campground on the southeast side of the bridge.

## ROCKY MOUNTAIN CANOE CLUB

### Select List of Canoe Dealers and Equipment Suppliers

- Arvada Boats, 9041 Oberon Rd., Arvada, CO 80004; 424-2262.  
Gruman Canoes and accessories.
- Boulder Whitewater Supply, 2510 N. 47th St., Boulder, CO 80301;  
444-8420. Mohawk ABS Canoes; kayaks; Extrasport PFDs; Norse,  
Mohawk and wood paddles; wet suits and booties; paddle jackets;  
flotation and dry bags; large selection of paddling clothing  
and gear; neoprene; floating rope; kayak and canoe lessons.
- Cricket Paddles, Mike Jones, 7196 Aspen Meadow Dr., Evergreen, CO  
80439; 670-1149. Hand-crafted wood paddles by one of our own  
club members.
- Holubar Denver, 2490 S. Colorado, Denver, CO 80222; 758-6366. Mad  
River and Old Town Canoes; Iliad and Sawyer paddles; PFDs; wet  
suits; paddle jackets; flotation and dry bags; Croakies (eyeglass  
strap).
- Jerry Nyre, 11075 W. 58th Ave., Arvada, CO 80003; 423-4314, call  
(after dark) for appointment. Blue Hole, Sawyer and We-no-nah  
Canoes; Extrasport PFDs; Iliad and bent paddles; flotation;  
accessories. Downriver/marathon racing guru.
- REI, 2200 W. Alameda Ave., Denver, CO 80223; 937-0536. Old Town  
Canoes; Sterns and Seda PFDs; Mohawk and Seda paddles; nice wet  
suits and booties; paddle jackets; flotation and dry bags.

#### Other Suppliers

- Plasticrafts, 600 W. Bayaud Ave., Denver, CO 80223; 744-3701.  
Fiberglass supplies.
- Tharco Container, 13400 E. 39th Ave., Denver, CO 80239; 373-1860.  
Ethafoam.
- Styro Materials, 2519 Walnut, Denver, CO; 825-2307. Ethafoam.
- Lane Supply, 2050 W. Barberry Pl., Denver, CO 80204; 534-5371.  
3M 4693 Plastic Adhesive to glue Ethafoam (and other foams) to  
itself and 3M 2216 Structural Adhesive for heavy-duty bonding.
- Backpacking/mountaineering stores. Fiberpile, polypro and wool  
clothes; closed cell foam (sleeping pads); nylon webbing and  
carabiners.
- Hardware stores. 3M Super Weatherstrip Adhesive and Barge Cement  
for gluing foam into boats; duct tape.
- Scuba diving shops. Wet suits; booties; neoprene gloves.
- Sailboat stores. Dek's Olje #1 for oiling wood gunwales and thwarts.

#### Not So Local

- Colorado Kayak Supply, Box 291, Buena Vista, CO 81211; 395-2596.  
Vinylester resin for stronger fiberglass repair.
- Northwest River Supplies, 430 W. 3rd, P.O. Box 9186, Moscow, Idaho  
83843; (208) 882-2383. Mostly rafts; also raft-type D-ring  
patches; heavy-duty dry bags; other goodies.
- Pacific Water Sports, 16205 Pacific Highway South, Seattle, WA 98188;  
(206) 246-9385. D-ring anchors for ABS; nice thigh strap and  
knee pad kits.

## ROCKY MOUNTAIN CANOE CLUB

The Rocky Mountain Canoe Club was formed in 1975 in Boulder by a small group of open canoeists. Since then, the membership has grown to over 100 families. The purpose is to provide a vehicle for meeting other boating enthusiasts. Officers are elected each fall at our annual pot-luck dinner and slide show of the past summer's trips. They are responsible for organizing the trip schedule for the following summer, collecting dues and signed waivers, updating the membership lists, and sending newsletters to members informing them of trip changes, new members, equipment for sale, or anything else pertinent to the members.

Trips are organized for most every weekend from May through September. Most of the club's members have open canoes, but Folbots, kayaks, and C-2's are also represented. Trip emphasis is on river canoeing and we try to have a mix of easy, intermediate, and advanced trips. The mix is influenced by the number of volunteer leaders we have and the trips they want to lead. The trip "rating" may also change depending on water levels and temperature. The trip leader is responsible for the planning, coordination, and safety of each trip and each participant must register with him or her before the trip's departure. Make sure that the leader is aware of your abilities, so that he/she can assess if the trip is appropriate for you. Safety and environmental awareness are stressed on every trip.

Beginning canoeists are always welcome. Each year we hold a basic river canoe instruction weekend. This is an excellent opportunity to learn the basics, check out new equipment or transfer your lake paddling techniques to whitewater.

Dues are \$7.50 per family per year to cover the cost of preparing and mailing newsletters, etc. Please make your check out to: "Rocky Mountain Canoe Club". We also ask you to sign a waiver prior to your first trip. We have been advised that such a waiver would be good in order to assure that each member understands the risks involved in canoeing and the fact that none of our members are in the business of teaching canoeing, nor conducting Outward Bound-type experiences.

The club has much to offer the canoe enthusiast, with trips ranging from family outings to those which will challenge the expert; not to mention providing the opportunity to meet others with similar interests and abilities.

## What To Bring On A River Canoe Trip

Life Jackets

Extra Paddle

First Aid Kit

Bailing Bucket & Sponge

Knee Pads

50 Feet of  $\frac{1}{4}$ " Nylon Line or Polypropylene or Gold line  
(a throw sack is handy and easy to make)

Shoes that won't fall off - Scuba wet "socks" with reinforced soles are warmer

Hat - you'll want a tie string for windy trips

Sun Tan Lotion (Long sleeve shirts and long pants for those with sensitive skin)

Sunglasses

Mosquito Repellant

Gloves (For long trips with wooden paddles or colder weather)

Beverages and Snacks (more carbohydrates than protein)

Waterproof container for cameras, food, etc.

Duct tape for repairs on more difficult trips (It's good to have along on the  
trips that are further away from  
civilation in general.)

Second Set of dry clothes

Substantial 2 piece rain suit - no ponchos

Stove and fire starter of some type that's waterproof

Garbage Bag

Wool Sweater and Wind Shell

Drinking water

Chapstick

Don't take anything with you that you can't afford to lose.

ROCKY MOUNTAIN CANOE CLUB RIVER TRAINING

EQUIPMENT LIST

Mandatory Equipment:

Canoe  
Adequate Paddles  
PFD/Life Jacket. U.S. Coast Guard approved. Type III (vest type) preferred.  
Extra flotation (tied in). Air bags, foam blocks, truck inner tubes, etc. Should mostly fill center 4 to 5 feet of canoe.  
Painters (end ropes) on both ends, approximately 10 to 15 feet long.

Highly Recommended:

Bailing bucket (tied in). Gallon plastic bleach bottle with bottom cut off.  
Spare paddle  
Wet suit booties or sneakers with wool or neoprene socks  
Knee pads  
Wool or fiberpile sweater  
Paddle jacket (any sturdy waterproof jacket, coated nylon preferred)  
Water bottle  
Enough to drink  
Spare clothes (wool, fiberpile, polypro or other warm-when-wet materials)  
Waterproof bag or container  
First aid kit

Suggested:

Sun screen  
Sun glasses  
Spare glasses, if required  
Eyeglass restraint strap  
Bug repellent  
Lunch  
High energy snacks  
Paddle pants (coated nylon recommended)  
Wet suit  
Hat  
Duct tape  
1/8 inch nylon cord  
Dry clothes and towel in car

EVERYTHING EXCEPT YOURSELF AND PADDLE IN HAND MUST BE SECURELY ATTACHED TO CANOE!!!!!! NO LOOSE ITEMS.

BE PREPARED TO GET WET.

Do Not Bring:

Dogs, children as passengers, more than two people per canoe, alcohol, ponchos, heavy boots or glass bottles.

## ROCKY MOUNTAIN CANOE CLUB RIVER TRAINING

The Spring Beginner Canoe Training for which you have registered will be held on May 20, 21 and June 4. Participants in the training must attend all sessions.

The first session, on Friday evening, May 20, will be a lecture and movie presentation. Jim Herring will discuss technique, boats, equipment, river reading and safety and Lynn Sander will discuss hypothermia. The session will be held at 6:00 p.m. in Room 101 of the Tower Building on the Loretto Heights College campus, 3001 South Federal Blvd. ( $\frac{1}{2}$  mile north of Hampden). The room is at the north end of the lower floor of the large, red stone building with the tower. Lots of free parking is available.

The Saturday, May 21 session will include both lake and easy river training. Meet at Chatfield Reservoir at 8:30 a.m. for lake demonstrations and practice of river paddling techniques. Please arrive by 8:30 so the session can begin at 9:00. There is an entrance fee to the park. Jerry Nyre will be on hand to demonstrate the various canoes that are available and their handling characteristics. After lunch we will practice river paddling on the South Platte River from C-470 (just below Chatfield Dam) to Bowles Avenue.

The last session, June 4, will be a river session of moderate difficulty. Swift moving water can be very intimidating to the first-time canoeist. Every possible step will be taken to prevent problems, but some of our new paddlers will certainly take an occasional swim. By having more than enough instructors and experienced helpers along, Ray Crockett hopes to make these dumps as few and as short as possible.

Please arrange to have a boat and the four other items shown on the attached mandatory equipment list at the on-water sessions. All training participants must be Rocky Mountain Canoe Club members. Please read the following chapters in the enclosed White Water Handbook: II, III, V, VI, VII, VIII and Appendix B.

If you have questions, please call Ray Crockett at  or Jim Herring at

Chama River Log

- River  
Mile
- 0.0 El Vado Ranch put-in. Camping and cabins are available.
  - 3.0 Confluence of Rio Nutrias. Chama canyon is 500 feet deep and partially forested.
  - 3.75 Old abandoned Ward Ranch with hot spring. Interesting stop.
  - 6.0 Arroyo del Puerto enters from the west. Chama Canyon opens out temporarily. Sagebrush and grass are the main vegetation.
  - 8.25 First class II rapid. This is a short straight-on run with a sleeper in the middle at the bottom. The canyon enters a thick forest of ponderosa pine. Canyon depth is over 700 feet deep.
  - 9.4 Santa Fe National Forest begins on west bank.
  - 10.0 Aragon Rapid, class II+. Right turn at the top; stay away from sheer wall. Beautiful side hike up to Aragon spring and falls which are 2/3 mile up Aragon Canyon to the west. The canyon is 900 feet deep; heavily forested.
  - 12.2 Dark Canyon Rapids, class II+. This rapid is a long rock field with a gradual right hand bend.
  - 13.4 Dark Canyon enters from the west.
  - 13.8 Rio Cebolla confluence from the east. Chama canyon 1,000 feet deep. Hart Canyon Trail comes down off Mesa de las Viejas from the east.
  - 14.2 Begin Chama River Canyon Wilderness.
  - 16.25 Chama Rock on left bank. This is a sheer, single piece of stone coming straight out of the water, 850 feet high.
  - 17.75 Huckaby Canyon enters from the east. Chama Canyon 1,500 feet deep and heavily forested. Huckaby Canyon ends in a box canyon about 1/4 mile from the Chama. Interesting side hike. (Snags and other debris pile up on a right turn just below Huckaby and can be dangerous.)
  - 20.25 Private land begins on east bank. Exit from Rio Chama Wilderness.
  - 20.75 Monastery of Christ in the Desert on east bank. Please respect property rights and placid atmosphere of the Monastery. Chama Canyon opens out. Cottonwoods replace ponderosa pine.
  - 21.0 Private land begins on west side and continues on east side.
  - 21.5 Rio Gallina enters from west. Exit private land for 1/4 mile. (Gallina Ranch take out or put in. Road access from west.)
  - 22.0 Leave private land.
  - 23.0 Class II+ rapid with turn to right. Avoid undercut wall on left.
  - 23.4 Meandering Rapid begins. This class II rapid is long and full of bends and islands. Watch for downed trees and logs.
  - 25.0 Meandering Rapid ends.
  - 25.4 Pump station on right bank.
  - 26.0 Last take out before bridge.
  - 26.6 Ojitos Canyon enters from right. Stone Bridge is a class III. In very high water boats cannot fit under bridge. You cannot see the bridge until you are starting into the rapid. Scout it!
  - 28.75 Gaging Station Rapids. Class III. River takes a hard right piling up against a sheer rock wall on the left. During high flows there are three to four foot standing waves in the middle. It is difficult to miss these hay stacks as there is a large rock on the right side just before the turn.
  - 29.25 Screaming Left (Wall Shot, Ratchet) Rapid, class III. 90 degree left turn at bottom of rapid. It is very tight. Chama Monument appears to the southwest. It looks like a giant sandstone throne with an amphitheatre to the east of it.
  - 30.25 Overhang Rapid, class III. Stay away from the overhang on the right.
  - 30.5 Whirlpool/Big Eddy take out. Access road on the east bank of the river.

A product from Minnesota that seems to be pretty good is a canoe cover made by  
Cooke Custom Sewing, 1544 Osborne Road, Fridley, Minnesota 555432; Dan or  
Karen Cooke 612-784-8777. A two Piece cover is \$200.00; three piece cover is  
\$275. It's made for cruising, not whitewater running. Experience has taught  
Ken Ramsay that he does not want to make another one; HE WILL BUY IT.

A GOOD IDEA

INDEX OF ROCKY MOUNTAIN CANOE CLUB RIVER TRIPS

Animas River - Near Durango, Colo.	Easy
Arkansas River - Near Florence, Colo.	Low Intermediate
Blue River - Silverthorne to Blue River Campground	Intermediate (dam controlled)
Blue River - Blue R. Campground to Green Mt. Res.	Advanced (dam controlled)
	Only for decked boats
Blue River - Green Mt. Reservoir to Kremmling	Advanced from dam to Spring Creek Rd. Intermediate below that road. Dam controlled.
Conejos River - Spectacle Lake to Aspen Glade, Colo.	Intermediate (July)
Colo. River - Granby to Hot Sulphur Springs (bypass unrunnable Byers Canyon) and on to Kremmling.	Easy except for some rock-dodging (May)
Colo. River - Pump House Put-in to State Bridge, Colo.	Advanced (May)
Colo. River - State Bridge to Burns Bridge, Colo.	Easy (July). Easy in higher water too.
Colo. River - Burns Bridge to Dotsero, Colo.	Intermediate (July)
Colo. River - Twin Bridges to Near Dotsero, Colo.	Intermediate (July), Advanced (May-June)
Colo. River - Dotsero to Hanging Lake, Colo.	Easy (May-June)
Colo. River - Grizzly Creek to New Castle	Intermediate (July)
Colo. River - Near Rifle, Colo.	Low Intermediate
Colo. River - Horsethief & Ruby Canyons, Colo.	Easy (May)
Colo. River - Ninemile Bottom to Moab, Utah	Advanced (May), Intermed. (Sept.)
Colo. River - Cisco to Moab, Utah	Advanced (May), Intermed. (Sept.)
Colo. River - Westwater Canyon	Advanced (Sept.) Decked boats with strong, <u>expert</u> paddlers.
Dolores River - Dolores to Slickrock	Advanced (if runnable). Decked boats only.
Dolores River - Slickrock to End of Flume Canyon	Advanced (May)
Dolores River - Bridge to Gateway	High Intermediate
Eagle River - East of Wolcott	Advanced (June)
Green River - Flaming Gorge Dam to Gates of Lodore, U.	Advanced (dam controlled) (July)
Green River - Labyrinth Canyon	Intermediate (due to overnight and isolation)
Green River - Desolation and Gray Canyons, Utah	Advanced (August)
Gunnison River - Delta to Whitewater	Intermediate (May)
North Platte River - North Gate Canyon (upper end)	Advanced (July)
North Platte River - Six Mile Gap to Plattoga Ranch, Wyoming	Advanced (June) (only for the upper stretch)
North Platte River - Bennett Peak Campground to Saratoga, Wyoming	Intermediate (July)
North Platte River - Saratoga to I-80 Bridge, Wyo.	Intermediate (July)
Rio Grande River - Wagon Wheel Gap to South Fork, Colo.	High Intermediate
San Juan River - Bluff to Mexican Hat, Utah	Low Intermediate (April)
South Platte River - Bridge Crossing to South Platte Townsite	Intermediate (The Slot is advanced.) (Dam controlled)
South Platte River - Chatfield Dam to Denver	Easy
South Platte River - Platteville to Greeley	Easy (April)
South Platte River - Through Denver	Intermediate (numerous portages)
White River - Meeker to Rio Blanco Lake	Intermediate (May 30)
Yampa River - Craig to Juniper Springs, Colo.	Intermediate (due to overnight and lack of highway access along river) (May)

## Trip Leader's Guide

Last season there was some confusion about the trip leader's responsibility for preparation and conduct of his trip. I have jotted down a few guidelines for this season, and welcome any suggestions or comments on improvements. We will send to each member a collection of trip descriptions the first week in May. Each trip leader should prepare a short description of the trip based on a previous year's experience, topographic maps, etc. It should include the dates, length of the trip ("all day Saturday" or "Saturday afternoon and Sunday morning"), difficulty of the water, travel time from Denver, any special limitations ("canoe camping trip"), other helpful information and the leader's name, address and phone number. These descriptions should reach the secretary no later than May 1st. As the date of the trip approaches he should--

### A. Preparation

1. Scout the river before the day of the trip and run it ahead of time if uncertain of conditions.
2. Select area to be paddled based on water conditions and trip time available.
3. Clear access to launching and take-out points with land owners.
4. Sketch maps that might be helpful in finding the initial and terminal points.
5. Check camping/motel facilities in the area for overnight trips.
6. Arrange car pooling for those interested.
7. Help in matching paddlers without canoes to those looking for partners.
8. Make final decision on whether the trip is "on" or "off" in the event of bad weather, etc.

### B. On the Trip

1. Change length of trip if necessary due to water or weather.
2. Complete car spotting before the scheduled launching time.

3. Establish any safety rules for the trip.
4. Insures that a boat in each group is equipped for rescue and first aid.
5. Decide how to cope with obstacles--whether to run or portage rapids, etc.

- C. After returning the leader will fill out the trip report form, including any information that might be helpful for a later excursion such as:

Alternate launching sites

Fences encountered

It might be better to run it at a different time of day or year

Interesting landmarks or scenery

Date?
